

Sprint 1 Plan

- Product Name: Neat Tabs
- Team Name: Tab-o-Rama
- Sprint Completion Date: Wednesday, October 19, 2016
- Revision Number: 1
- Revision Date: Tuesday, October 4, 2106

Goal

- Create a starter Chrome Extension for which we will be working off of
- Try and work on basic functionality using Google's Chrome API
- Have a basic/minimal layout to display our current tabs

User Stories

- As a user, I want to be able to save and restore tabs/sessions so that I can keep them organized.
 - Read/Return URLs from open tabs (7 hours)
 - HTML page for functionality options (5 hours)
 - Basic Framework (4 hours)
- As a user, I want to be able to easily aggregate all my open links in one central location.
 - Return all the open links that the user has open (5 hours)
 - Display the links in a list (3 hours)
 - Have the browser reopen a new tab with that link upon click (1 hour)
- As a user, I want a nicely designed interface that is appealing to the eye so I can navigate the extension intuitively with little problem.
 - Research HTML/CSS styling (3 hours)
 - Research if Bootstrap/other frameworks can be applied to our project (2 hours)
 - Actually design a copy of what our application will look like with the design (4 hours)
- As a user, I want to be able to save entire windows (and all tabs within) as a session and label it.
 - Event Listener (10 hours)
 - tabs.query (getAllwindows) (7 hours) [Sean, Gerado, Arthur]
 - Basic UI (HTML, menu layout) (4 hours) [Arthur]
 - Storing Information (Chrome Storage API)
- As a user, I want to be able to group together certain domains/tabs that have similar uses to me ({Netflix, YouTube} versus {ecommons, my.ucsc.edu}) - Tree View
 - Sort (alphabetical) saved sessions (3 hours)
 - Drop down logic/ layout (4 hours)
